🖱 My Portfolio

Profile

As a motivated web developer and recent graduate from DeVry College of New York with a degree in Information Technology and Networking, I am seeking a role as a full-stack web developer. I have developed an e-commerce website using React, Redux, and JavaScript, implementing full OAuth authentication. I am driven to expand my knowledge and skill set through hands-on experience, while contributing to a team and growing professionally.

Education

B. S. Information Technology and Networking,   01/2016 – 01/2019 │ New York, NY
